**PER MOTIVI DI SICUREZZA TUTTI GLI ARMADI CHE ALLOGGIANO CASSETTI SCHEDARIO: NEL CASO DI MULTIPLI ADIACENTI VANNO FISSATI TRA LORO PER MEZZO DELLE VITI IN DOTAZIONE**

FOR SAFETY REASONS ALL THE CABINETS EQUIPPED WITH FILING DRAWERS: MUST BE FIXED EACH OTHER WITH THE SUPPLIED SCREWS IN CASE OF ADJOINING MULTIPLE UNITS

POUR RAISONS DE SÉCURITÉ TOUTES LES ARMOIRES DOTÉES DE TIROIRS FICHER: DOIVENT ÊTRE FIXÉS ENTRE EUX AVEC LES VIS FOURNIES EN CAS DE MULTIPLES ADJACENTS

POR RAZONES DE SEGURIDAD, TODOS LOS ARMARIOS QUE ALOJAN CAJONES FICHEROS: DEBEN SER FIJADOS ENTRE SÍ USANDO LOS TORNILLOS ENTREGADOS CON LOS EQUIPOS EN EL CASO DE MÚLTIPLES ADYACENTES

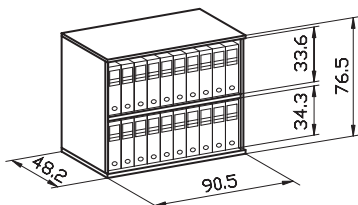

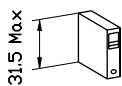

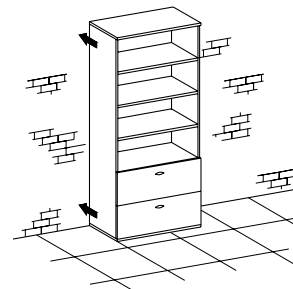

**NEL CASO DI ELEMENTO SINGOLO, QUESTO DEVE VENIRE ASSICURATO A UNA PARETE DI SOSTEGNO**

MUST BE SECURED TO A SUPPORTING WALL IN CASE OF A SINGLE UNIT.

DOIVENT ÊTRE ASSURÉES À UNE CLOISON DE SUPPORT EN CAS DE ÉLÉMENT SIMPLE.

DEBEN SER FIJADOS A UNA PARED DE SOSTÉN SI SE USAN DE FORMA INDIVIDUAL.

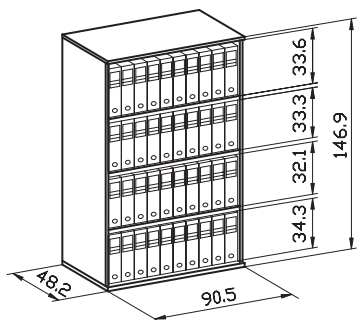

**LA CAPACITÀ STANDARD È DI 2 FILE DI RACCOGLITORI**

THE STANDARD CAPACITY ALLOWS TO PLACE 2 ROWS OF FILE-COVERS

LA CAPACITÉ STANDARD EST DE 2 SUITES DE CLASSEURS

LA CAPACIDAD ESTANDAR ES DE 2 RINGLERAS DE ARCHIVADORES

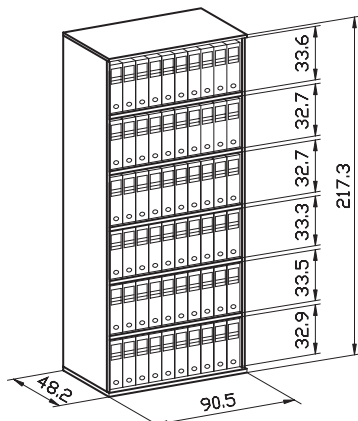

**LA CAPACITÀ STANDARD È DI 4 FILE DI RACCOGLITORI.**

THE STANDARD CAPACITY ALLOWS TO PLACE 4 ROWS OF FILE-COVERS.

LA CAPACITÉ STANDARD EST DE 4 SUITES DE CLASSEURS.

LA CAPACIDAD ESTANDAR ES DE 4 RINGLERAS DE ARCHIVADORES.

**LA CAPACITÀ STANDARD È DI 6 FILE DI RACCOGLITORI.**

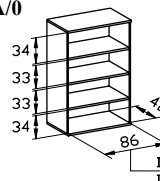

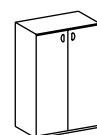

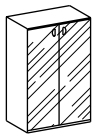

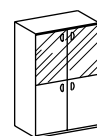

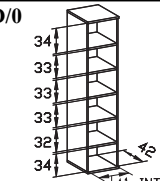

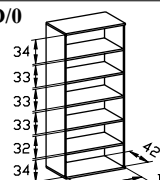

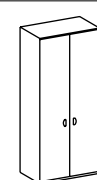

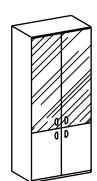

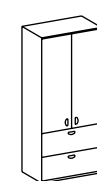

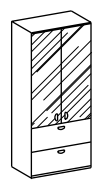

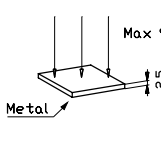

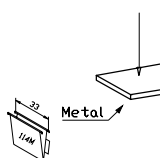

THE STANDARD CAPACITY ALLOWS TO PLACE 6 ROWS OF FILE-COVERS.

LA CAPACITÉ STANDARD EST DE 6 SUITES DE CLASSEURS.

LA CAPACIDAD ESTANDAR ES DE 6 RINGLERAS DE ARCHIVADORES.

## SCHEDA TECNICA COLLEZIONE MASTER POINT

### Scrivanie:

La struttura, registrabile in altezza, ha gambe indipendenti costruite in un robusto scatolato di lamiera d'acciaio, decapato e verniciato con polveri epossipoliestere polimerizzate in forno a 200°C. Composta da un'asta in lamiera stampata, la gamba, regolabile in altezza ogni cm tra i 680 e i 760 mm con due semplici viti, è collegata al piano da una robusta staffa. Sempre le gambe sono finite superiormente con una cuffia in cuoio cucita a punto sella, coordinata, volendo, con un frontale strutturale in multistrati di legno, conformato a semicerchio e rivestito anch'esso in cuoio cucito a punto sella. Il piano: è in legno da 30mm di spessore (costruito in MDF) e bisellato perimetralmente, impiallacciato in legno di ciliegio americano oppure in rovere tinto wengé, laccato a più mani con vernici poliuretaniche opache; oppure è in vetro temprato da 12 mm, satinato e rifinito con bordo a filo lucido su tutto il perimetro. La canalizzazione di serie prevede l'alloggiamento dei cavi in una canaletta fissata sotto il piano, mentre per la salita i cavi vengono raccolti in una gamba. Nelle scrivanie con i piani in vetro, è disponibile solo la salita dei cavi entro la gamba.

### Cassettiere:

Le cassettiere hanno il top bisellato in MDF ed i frontali in truciolare da 18mm il tutto impiallacciato in legno, mentre i fianchi, la base e lo schienale sono costruiti con pannelli, sempre con spessore 18mm, in nobilitato color alluminio bordato PVC. I cassetti completamente in metallo montano guide a scomparsa scorrevoli su rulli, per la versione schedario si utilizzano guide telescopiche ad estrazione totale, internamente sono predisposti all'utilizzo di divisori ed hanno le maniglie in cuoio cucito a punto sella. Le cassettiere sono provviste di serratura con chiusura simultanea di tutti i cassetti e sotto il top, nel vano del primo cassetto, si può montare un cassetto portacancelleria in plastica.

### Allunghi:

Versatili allunghi affiancano le scrivanie, sempre con il piano, le ante ed i frontali cassetto impiallacciati in legno. Strutturalmente si possono avere elementi di supporto in pannelli melaminici color alluminio, oppure gambe metalliche. Esiste la versione con gambe abbinata ad una cassetta strutturale, in ogni caso, quando a sostegno degli allunghi ci sono gambe metalliche, questi sono regolabili in altezza.

### Armadi e librerie:

Gli armadi hanno i fianchi ed i piani costruiti in uno scatolato di lamiera d'acciaio verniciata color alluminio, la base da 30mm e lo schienale da 18mm sono in nobilitato color alluminio bordato PVC; il top, bisellato e rinforzato, è in MDF da 18mm impiallacciato in legno. I ripiani interni sono in lamiera metallica verniciata.

Gli armadi poggiano su piedini registrabili dall'interno e sono predisposti all'unione laterale. Le porte (in truciolare da 18mm) impiallacciate in legno, vengono montate su cerniere con apertura a 110° e nella versione optional possono alloggiare la serratura con chiave. Le porte in vetro temprato hanno uno spessore di 5mm. I cassetti schedari montano un telaio in acciaio verniciato e scorrono su guide telescopiche a sfera. Per motivi di sicurezza, tutti gli armadi che alloggiavano i cassetti schedario devono essere fissati tra di loro (nel caso di multipli adiacenti) per mezzo delle viti in dotazione. Mentre se usati singolarmente devono essere assicurati ad una parete di sostegno. Sono disponibili librerie che hanno la struttura degli armadi ed utilizzano schermi e componenti in lamiera d'acciaio calandrata e verniciata; le mensole sono in vetro temprato da 8mm. Le angoliere montano porte in multistrati di legno rivestite in cuoio cucito a punto sella o in vetro temprato e satinato.

### Complementi:

Gli accessori sono costruiti in lamiera d'acciaio verniciato con polveri epossipoliestere e rivestiti in cuoio lavorato a mano con cucitura a punto sella. A catalogo sono disponibili opere grafiche su tela personalizzate olio e matita dall'artista Isabella Pers inserite entro una cornice in alluminio ricoperta in cuoio con cucitura a punto sella. Nel caso che il Cliente sia già in possesso di tele, è possibile costruire la relativa cornice su misura. Non solo il cuoio color naturale guarnisce gli accessori o le finiture di MASTER POINT, bensì tutta la serie di tinte cuoio delle collezioni CODUTTI, a richiesta, è disponibile per coordinare gli arredi.

### Poltrone in cuoio MASTER:

Hanno la scocca in multistrati con imbottitura in espanso indeformabile e sono rivestite in cuoio da 1,7-1,8mm di spessore lavorato a punto sella. Montano un meccanismo oscillante, con blocco in 6 posizioni. L'elevazione avviene tramite pompa a gas. La base è in alluminio verniciato a cinque razze, con ruote doppie piroettanti. I braccioli sono in legno massello laccato hanno struttura metallica in tubo verniciato. La versione visitatore ha la struttura fissa in tubo con diametro 25mm verniciato.

### Poltrone POINT:

Hanno la scocca in multistrati con imbottitura in espanso indeformabile e sono rivestite in tessuto od in pelle. Montano un meccanismo oscillante, con blocco in 1 posizione. L'elevazione avviene tramite pompa a gas. La base è in alluminio verniciato a cinque razze, con ruote doppie piroettanti. I braccioli sono in legno massello laccato hanno struttura metallica in tubo verniciato. La versione visitatore ha la struttura fissa in tubo ovale 36x18mm verniciato.

### Poltroncine e divani MP:

Sono costruiti con un telaio in acciaio, imbottiti con espanso indeformabile e rivestiti in tessuto od in pelle. I braccioli sono in tubo verniciato.

## MASTER POINT COLLECTION TECHNICAL SPECIFICATIONS

### Writing desks:

The height-adjustable structure of MASTER POINT desks disposes of independently-mounted legs made from sturdy box-type sheet steel, pickled and kiln-lacquered with polymerized epoxy-polyester at 200°C. The leg comprises a pressed sheet steel upright fixed to the desktop by means of a sturdy bracket and is adjustable every cm from 680mm to 760mm by means of two screws. Leg tops are finished with a saddle-stitched leather cap optionally combined with a structural modesty panel available in semicircular bent multilayered wood upholstered in saddle-stitched leather. The wood top in 30mm-thick MDF and has round-contoured edged. It is veneered in American cherry or wengé finished oak-wood and lacquered with several coats of matt-finish polyurethane varnish. The 12mm-thick toughened glass top has a satin finish and all-round bright filament edges. Standard cable housing is in a small channel mounted under the desktop. Cables are guided to the desktop along one of the legs. The leg-mounted cable channel only is available for glasstop desks.

### Drawer boxes:

Drawer boxes feature a contour-edged MDF top and front panels in 18mm-thick particleboard, all wood veneered. Sides, bases and backs are in 18mm-thick aluminium-colour melamine particleboard with PVC edging. All-metal drawers are fitted with roller-mounted sliding pull-out guides. Filing cabinets have fully extractable drawer guides and are designed to allow the use of internal partitions. Handles are in saddle-stitched leather. Drawer boxes are fitted with a simultaneous locking device that blocks all the drawers. A practical plastic stationery tray can also be fitted under the worktop in the space for the top drawer.

### Extensions:

Versatile extensions, with wood veneered top, doors and drawer fronts, complete the writing desks. Both supporting elements, constructed from aluminium coloured melamine panels, and metal legs are at disposal. The version with legs combined with a supporting drawer unit is also available; the extensions are anyway height-adjustable if they are supported by metal legs.

### Cabinets and bookcases:

Cabinet sides and shelves are in lacquered aluminium-coloured box-type sheet steel, the 30mm-thick base and the 18mm-thick back are in aluminium-coloured, PVC-edged, melamine particleboard. Cabinet tops, which are contour-edged and reinforced, are in 18mm-thick wood veneered MDF. The internal shelves are in lacquered metal sheet. Cabinets are supported on feet that can be adjusted from the interior and are designed to be connected laterally to each other. Doors in 18mm-thick wood veneer particleboard are mounted on hinges that open to 110°. The optional version can be fitted with a key-operated lock. The toughened glass doors are 5-mm thick. File drawers feature a lacquered steel frame and run on ball-mounted telescopic guides. For safety reasons all the cabinets equipped with filing drawers must be fixed each other (in case of adjoining multiple units) with the supplied screws, while if they are used separately they must be secured to a supporting wall. Cabinet-style bookcases are also available, incorporating screens and components in lacquered bent sheet steel. Shelves are in 8-mm thick toughened glass. Corner units have doors in multilayered wood covered with saddle-stitched leather or in toughened satin glass.

### Accessories:

Accessories are in epoxy-lacquered sheet steel upholstered in handmade saddle-stitched leather. As in the catalogue reported the collection comprises also oil and pencil graphic works signed one by one by the artist Isabella Pers, mounted in an aluminium frame covered with saddle-stitched leather. It is also possible to supply frames to measure, in case that the client already owns some pictures. To coordinate the components of MASTER POINT collection the accessories or finishes decoration is in leather, natural coloured but also coloured according to the leather teints of CODUTTI collections.

### MASTER leather armchairs:

Master chairs feature a multilayer shell padded with shape-retaining expanded polyurethane and upholstered in 1,7-1,8mm-thick saddle-stitched leather. They are fitted with a 6-position blockable rocking mechanism. Height is adjustable by means of a gas-action pump. The 5-spoke base is in lacquered aluminium, fitted with dual castors. Arms are in lacquered solid wood with a lacquered tubular metal structure. The visitor version has a lacquered 25mm-diameter tubular fixed structure.

### POINT armchairs:

Point chairs feature a multilayer shell padded with shape-retaining expanded polyurethane and are lined with fabric or leather. They are fitted with a 1-position blockable rocking mechanism. Height is adjustable by means of a gas-action pump. The 5-spoke base is in lacquered aluminium, fitted with dual castors. Arms are in lacquered solid wood with a lacquered tubular metal structure. The visitor version has a lacquered 36x18 mm oval tubular fixed structure.

### MP small armchairs and sofas:

They have a steel frame padded with shape-retaining expanded polyurethane and are covered with fabric or leather. Arms are in lacquered tubular metal.

## FICHE TECHNIQUE COLLECTION MASTER POINT

### **Bureaux:**

La structure est réglable en hauteur, avec piétements indépendants construits en tôle d'acier pliée en caisson, laquée avec poudres époxy polyester polymérisées au four à 200°C. Le piétement, réglable en hauteur tous les cm de 680 à 760mm à l'aide de deux vis, est composé d'un pied en tôle estampé assemblé au plateau par une solide platine. Les pieds présentent sur le dessus un embout en cuir cousu façon sellier. Les bureaux peuvent être équipés d'un voile de fond structurel en multiplis de bois cintré en demi-cercle et recouvert en cuir cousu façon sellier. Le plateau est en MDF de 30mm d'épaisseur avec chants profilés en "aile d'avion" sur tout le pourtour; il est plaqué en cerisier ou en bois the rouvre finition wengé, traité en surface avec plusieurs couches de vernis polyuréthane finition mate. Le plateau en verre trempé de 12mm est satiné avec arête polie sur tout le pourtour. Le chemin de câbles horizontal fourni de série prévoit le logement des câbles dans une gaine fixée sous le plateau tandis que la montée des câbles s'effectue à l'intérieur d'un des piétements. Dans les bureaux avec plateau en verre, seul le chemin de câbles à l'intérieur du piétement est disponible.

### **Caissons à tiroirs:**

Le dessus des caissons est en MDF avec chants profilés en "aile d'avion" et les façades sont en aggloméré de 18mm, le tout plaqué en bois tandis que les côtés, la base et le panneau arrière sont construits avec des panneaux de 18mm d'épaisseur avec finition mélaminée couleur aluminium et chants en PVC. Les tiroirs, entièrement en métal, sont munis de glissières à guidage escamotable sur rouleaux; dans la version classeur, les tiroirs sont munis de glissières télescopiques à extraction totale, ils sont prévus pour recevoir des séparations internes; les poignées sont en cuir cousu façon sellier. Les caissons sont munis de serrure avec fermeture simultanée de tous les tiroirs. Derrière la façade du premier tiroir, il est possible de monter un tiroir plumier en plastique.

### **Rallonges:**

Des rallonges adaptables, avec le dessus, les portes et les fronts des tiroirs plaqués en bois, complètent les bureaux. La structure peut disposer de éléments de support en panneaux mélaminés de couleur aluminium ou de pieds métalliques. Il y a aussi la version avec piétements assemblés avec un caisson de support; en tout cas si les rallonges sont soutenues par pieds métalliques, elles sont réglables en hauteur.

### **Armoires et bibliothèques:**

Les étagères et les côtés des armoires sont construits en tôle d'acier pliée en caisson et laquée couleur aluminium; la base de 30mm et le panneau arrière de 18mm sont en mélaminé couleur aluminium avec chants en PVC tandis que le dessus, renforcé, avec chants profilés en "aile d'avion" est en MDF de 18mm plaqué en bois. Les étagères internes sont disponibles en tôle métallique laquée. Les armoires reposent sur des vérins réglables de l'intérieur et sont prévues pour la jonction latérale. Les portes (en aggloméré de 18mm) plaquées en bois sont montées sur charnières avec ouverture à 110° et en option elles peuvent être munies de serrure avec clé. Les portes en verre trempé ont une épaisseur de 5mm. Les tiroirs classeurs sont équipés d'un châssis en acier laqué et coulissent sur des glissières télescopiques avec guidage à billes. Pour raisons de sécurité toutes les armoires dotées de tiroirs fichier doivent être fixés entre eux (en cas de multiples adjacents) avec les vis fournies, tandis que s'elles sont utilisées individuellement elles doivent être assurées à une cloison de support. Le programme comprend également des bibliothèques qui possèdent la même structure que les armoires et utilisent des panneaux-écrans et des composants en tôle d'acier ceintrée et laquée; les étagères sont en verre trempé de 8mm. Les éléments d'angle sont équipés de portes en multiplis recouvertes de cuir cousu façon sellier ou en verre trempé satiné.

### **Compléments:**

Les accessoires sont en tôle d'acier laquée avec poudres époxy polyester et recouverts en cuir cousu main façon sellier. Le catalogue propose aussi des oeuvres graphiques à l'huile et au crayon sur toile, personnalisées une à une par l'artiste Isabella Pers et montées dans un cadre en aluminium revêtu en cuir cousu façon sellier. Si le client possède déjà des toiles on peut construire le cadre sur mesure. Les accessoires ou les finitions de MASTER POINT sont décorés pas seulement en cuir de couleur naturel mais, sur demande, en la série complète de teintes cuir des collections CODUTTI, ainsi de assortir l'ameublement.

### **Fauteuils en cuir MASTER:**

Ils ont la coque en multiplis avec rembourrage en mousse expansée indéformable et sont revêtus en cuir de 1,7-1,8mm d'épaisseur cousu façon sellier. Ils sont équipés d'un mécanisme oscillant, avec blocage en six positions. Le réglage en hauteur est assuré par un verin à gaz. Le piétement est en aluminium laqué, à cinq branches, avec doubles roulettes pivotantes. Les accoudoirs sont en bois massif verni avec structure métallique en tube laqué. La version visiteur a une structure fixe en tube laqué de 25mm de diamètre.

### **Fauteuils POINT:**

Ils ont la coque en multiplis avec rembourrage en mousse expansée indéformable et sont revêtus en tissu ou cuir. Ils sont équipés d'un mécanisme oscillant, avec blocage en 1 position. Le réglage en hauteur est assuré par un verin à gaz. Le piétement est en aluminium laqué, à cinq branches, avec doubles roulettes pivotantes. Les accoudoirs sont en bois massif verni avec structure métallique en tube laqué. La version visiteur a une structure fixe en tube laqué ovale 36x18mm.

### **Petits fauteuils et sofas MP:**

Ils sont construits avec une structure portante en acier, rembourrés avec de la mousse expansée indéformable et revêtus de tissu ou de cuir. Les accoudoirs sont en tube laqué.

## FICHA TÉCNICA COLECCIÓN MASTER POINT

### **Escritorios:**

Se puede regular la altura de la estructura, las patas son independientes, construidas en robusto perfil tubular rectangular en chapa de acero decapado y pintado, con polvos epoxi-poliéster polimerizados a 200°C. La pata está compuesta por una barra en chapa moldeada, se puede regular su altura un centímetro por vez, entre 680 y 760 mm con dos simples tornillos y está unida al plano mediante una robusta abrazadera. Las patas están acabadas en la parte superior con un elemento de cobertura en cuero respunteado. Dispone de un faldón estructural multilaminar de madera, postformado en semicircunferencia y revestido de cuero, con costuras respunteadas. La tapa de madera de 30 mm de espesor (construida en MDF) está achaflanada perimetralmente, chapeada en madera de cerezo americano o bien en madera de roble encabado wengé, lacada con varias capas de pinturas poliuretánicas mate. La tapa de vidrio templado de 12 mm es satinada y terminada con canto brillante en todo el perímetro. Los canales de electrificación de serie alojan los cables dentro de una canaleta fijada debajo de la tapa, mientras para la subida los cables se agrupan en una pata. En los escritorios con las tapas de vidrio se dispone solamente de la subida de los cables en el interior de la pata.

### **Cajoneras:**

Las tapas de las cajoneras son achaflanadas en MDF y los paneles delanteros en aglomerado de 18 mm, chapeados de madera, mientras los costados, la base y la trasera están construidos con tableros siempre de 18 mm de grosor, en tablero melamínico color aluminio, rebordados de PVC. Los cajones completamente de metal están equipados con guías de rodamiento deslizables, para la versión archivador se utilizan guías telescópicas de extracción total, interiormente están provistas de divisores y tienen manijas en cuero respunteado. Las cajoneras están equipadas con cerradura con cierre simultáneo de todos los cajones; debajo de la tapa, en el vano del primer cajón, se puede montar un cajón de plástico para guardar el material de oficina.

### **Extensiones:**

Las extensiones versátiles complementan los mostradores, siempre con tableros, puertas y paneles frontales de los cajones enchapados en madera. Estructuralmente puede proponer elementos de soporte en paneles melamínicos de color aluminio o también patas metálicas. Existe la versión con patas combinadas a una cajonera estructural; las patas metálicas que sostienen las extensiones son de altura regulable.

### **Armarios y bibliotecas:**

Los costados y las tapas de los armarios están construidos en perfil tubular rectangular, en chapa de acero pintada de color aluminio, la base de 30 mm y la trasera de 18 mm son en tablero melamínico color aluminio, rebordado en PVC; mientras la tapa, achaflanada y reforzada es en MDF de 18 mm, chapeada en madera. Los estantes internos son en chapa metálica lacada. Los armarios se apoyan sobre patas ajustables desde la parte interna y están predisuestos para la unión lateral. Las puertas (en aglomerado de 18 mm) chapeadas en madera, están montadas sobre bisagras con apertura a 110°, y en la versión opcional pueden alojar la cerradura con llave. Las puertas de vidrio templado tienen un grosor de 5 mm. Los cajones para archivadores montan un armazón de acero pintado y se deslizan sobre guías telescópicas de bolas. Por razones de seguridad, todos los armarios que alojan cajones ficheros deben ser fijados entre sí (en el caso de múltiples adyacentes) usando los tornillos entregados con los equipos. Si se usan de forma individual es necesario fijarlos a una pared de sostén. Se dispone también de bibliotecas con la misma estructura de los armarios y utilizan paneles separadores y componentes en lámina de acero calandrada y pintada; los estantes son de vidrio templado de 8 mm. Los esquineros están equipados con puertas en multilaminar de madera, revestidas en cuero con costuras respunteadas o en vidrio templado satinado.

### **Accesorios:**

Los accesorios están construidos en chapa de acero pintado con polvos epoxi-poliéster y recubiertos en cuero trabajado a mano con costuras respunteadas. En el catálogo se ilustran las obras gráficas sobre tela, personalizadas en óleo y lápiz, de la artista Isabella Pers, con marco en aluminio recubierto en cuero con costuras respunteadas. Si el cliente posee ya telas de valor, es posible construir el marco a medida. Los accesorios y los acabados de la serie MASTER RECEPTION están embellecidos no sólo con cuero natural sino también con todas las tonalidades de cuero de las colecciones CODUTTI, disponibles bajo demanda para coordinar todas las decoraciones de interiores.

### **Sillones de cuero MASTER:**

El armazón es estratificado con rellenos en espuma indeformable, tapizado en cuero de 1,7-1,8 mm de espesor, con costuras respunteadas. Están equipados con mecanismo oscilante, con bloqueo en 1 posición. La elevación se realiza mediante pistón a gas. La base de apoyo pentagonal es de aluminio pintado y está equipada con ruedas dobles pivotantes. Los apoyabrazos son de madera maciza lacada y poseen estructura metálica en tubo pintado. La versión visitante tiene la misma estructura fija en tubo con diámetro de 25 mm, siempre pintado.

### **Sillones POINT:**

El armazón es estratificado con rellenos en espuma indeformable, tapizado en tejido o piel. Están equipados con mecanismo oscilante, con bloqueo en una posición. La elevación se realiza mediante pistón a gas. La base de apoyo pentagonal es de aluminio pintado y está equipada con ruedas dobles pivotantes. Los apoyabrazos son de madera maciza lacada y poseen estructura metálica en tubo pintado. La versión visitante tiene la estructura fija en tubo ovalado de 36x18 mm pintado.

### **Butacas y sofás MP:**

Están construidos con un armazón de acero, revestidos con espuma de poliuretano indeformable y tapizados con telas o piel. Los apoyabrazos son en tubo pintado.
